

Join the **CONCUSSION DISCUSSION**

Presenting Mayo Clinic's **C**oncussion **P**rogram **R**apid **R**esponse (CPR²)

According to the U.S. Centers for Disease Control (CDC), nearly 30 million children participate in youth sports in the United States. As the concerns about concussion risks rapidly grow, it's important for **parents**, **coaches** and **athletes** to know the facts.

In efforts to raise concussion awareness, Mayo Clinic is hosting a **free event** open to the public to discuss Mayo Clinic's state-of-the-art concussion protocols and present our Concussion Program Rapid Response (CPR²). A panel of concussion specialists led by Dr. David Dodick and Dr. Jennifer Wethe will discuss topics including:

- > **Concussion in youth sports**
- > **How to reduce the risk of concussion**
- > **How to quickly recognize possible concussions**
- > **What to expect when recovering from concussion**
- > **Mayo Clinic's Concussion Action Plan (CPR²)**

Guests will also be able to ask the renowned concussion experts their questions and concerns related to concussion.
